

**Professor Position in the Research Section of Information for Landslide Disaster Risk
Cognition and Reduction, Disaster Prevention Research Institute, Kyoto University**

October 16, 2023

The Disaster Prevention Research Institute (DPRI), Kyoto University invites applications for a Professor position.

Location: Research Section of Information for Landslide Disaster Risk Cognition and Reduction, Research Center for Landslide Disaster Risk Cognition and Reduction, Disaster Prevention Research Institute, Kyoto University, Gokasho, Uji, Kyoto 611-0011, Japan.

Job description and required qualifications:

The appointed professor is required to conduct the development of exploration methods and research for investigating the physical property information of slopes by integrating concepts from various research fields such as geology, geomorphology, and exploration geophysics. The candidate is expected to enhance the research aimed at clarifying the distribution and regional characteristics of landslides both in Japan and abroad by utilizing visualization and modeling techniques of slope structures, to establish high-precision landslide disaster risk information, and develop methods for immediate dissemination of risk information, taking into consideration changes in nature and society. Moreover, the candidate is expected to foster international dissemination of the information technology for risk information. In addition, the candidate will have responsibility for education in the Division of Earth and Planetary Sciences, Graduate School of Science, Kyoto University. The candidate must hold a Ph.D. or equivalent degree, have long-term research and/or practical experience outside of Japan, and be able to use Japanese on a daily basis.
