

Associate Professor, Prediction of Volcanic Eruptions

The Sakurajima Volcano Research Center, Disaster Prevention Research Institute (DPRI), Kyoto University, invites applications for a permanent position of Associate Professor.

The successful candidate will study prediction of volcanic eruptions of Sakurajima and other volcanoes in south Kyushu, Japan, based on geophysical observations. The candidate will also promote international and national collaborative studies with other universities and research institutes. The research will be done at Sakurajima Volcanological Observatory in Kagoshima city. It is expected that the Associate Professor will supervise graduate students and contribute to teaching in the Division of Earth and Planetary Sciences, Graduate School of Science, Kyoto University. The successful candidate should have a Ph.D degree or equivalent and be proficient in Japanese.

Applicants should prepare the following material in Japanese:

- (1) Curriculum vitae
- (2) List of publications (divided clearly into refereed journal papers and others)
- (3) Copies of five relevant papers
- (4) Brief summary of research and related contributions (up to two A4 pages)
- (5) Statement of research plans and educational efforts (up to two A4 pages, including figures)
- (6) Recommendation letters or names and contact information of two references
(include addresses, fax numbers, and e-mail addresses)

The complete application package must arrive by the deadline of 17 October 2012, and should be sent to the following address:

Selection Committee for Associate Professor, Prediction of Volcanic Eruptions
Administrative Office, Uji Campus
Kyoto University
Uji, Kyoto 611-0011 JAPAN

Inquiries can be sent to the email address, `apply_staff 'at' uji.kyoto-u.ac.jp` (replace 'at' with @)
