

Professor, Regional Water Environment Systems

The Water Resources Research Center (WRRC) of the Disaster Prevention Research Institute (DPRI), Kyoto University invites applications for a Professor position.

The appointed professor is requested to conduct research related to risk assessment and adaptation from the viewpoint of water hazard and water resources management in river basins based on the understanding of natural and social water cycle systems. Research topics include assessment of socio-environmental impacts on water resources and their uncertainties under changing climate, emphasizing application to such as Asian river basins and related international cooperation research projects.

He/she is also expected to contribute to the Department of Urban Management, Graduate School of Engineering, Kyoto University. The successful applicant is expected to have a Ph.D. or its equivalent and to be proficient in Japanese.

Applicants should prepare the following material:

- (1) Curriculum vitae
- (2) List of publications (divided clearly into refereed journal papers and others)
- (3) Copies of five relevant papers
- (4) Brief summary of research and related contributions (up to two A4 pages)
- (5) Statement of research plans (up to two A4 pages, including figures)
- (6) Recommendation letters or names and contact information of two references
(include addresses, fax numbers, and e-mail addresses)

The complete application package must arrive by the deadline of 12 April 2013 at the following address:

Selection Committee for WRRC Professor, Regional Water Environment Systems
Administrative Office, Uji Campus,
Kyoto University
Uji, Kyoto 611-0011 JAPAN
